Vitrified bonded grinding stones

Regular aluminium oxide: 1A
It is the general widely used alumina. The tools made of this material are suitable for processing low alloyed steels, superhard and middle hard metallic goods, it is very suitable for high cutting speed and rough processes.

Red aluminium oxide: 8A
Because of its high contents of chrom, it is very suitable for grinding of alloyed steels and tool steels.

White aluminium oxide: 6A
It is the most suitable grit for tool grinding. In addition to precision grinding and processing of high-speed steels, it is used to precision grinding of hardened and stainless-steels, too.

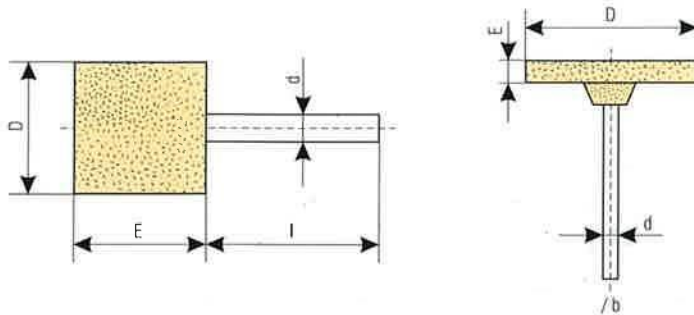

Black silicon carbide: 1C
It can be used for grinding of low tensile metallic and non-metallic materials, gray cast iron, bronze, aluminium, chill cast iron, malleable cast iron, copper as well as organic, mineral and ceramic goods.

Pink aluminium oxide: 7A
It is suitable to grind high tensile alloyed steels before hardening and for processing cast irons.

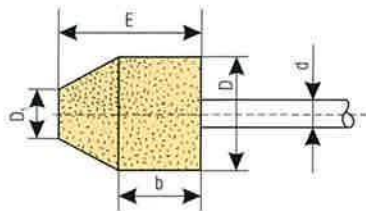

Green silicon carbide: 2C
First of all it is used for processing hard metal, ceramic materials, glass and acid-resistant austenitic steels.

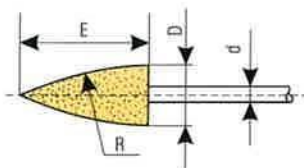

Cylindrical grinding tool with shaft

MSZ 4522/1-83
Dimension: $D \times E \times d$

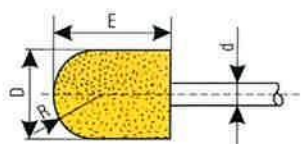

Cylindrical-conical grinding tool with shaft

Standard number: MSZ 4522/2-83
Dimension: $D \times E \times d$

Cambered grinding tool with shaft

Standard number: MSZ 4522/3-83
Dimension: $D \times E \times d$

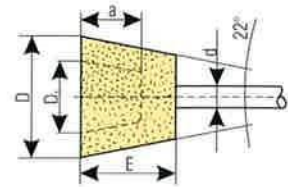

Cylindrical round-ended grinding tool with shaft

Standard number: MSZ 4522/4-83
Dimension: $D \times E \times d$

Vitrified bonded grinding stones

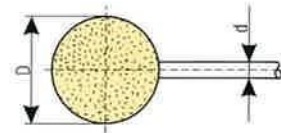

Flaring-Cup grinding tool with shaft

Standard number: MSZ 4522/5-83
Dimension: $D \times E \times d$

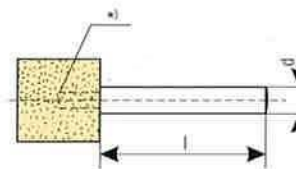

Spherical grinding tool with shaft

Standard number: MSZ 4522/6-83
Dimension: $D \times d$

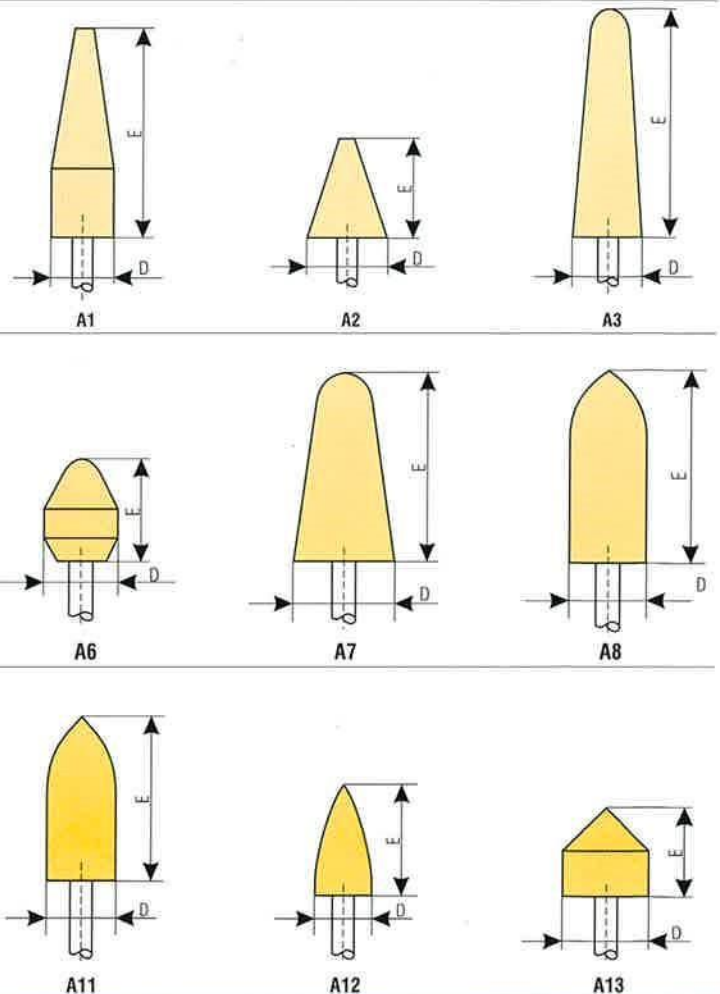

Steel shafts grinding tool with shaft

The shape and dimensions of the wheel shafts are determined by the wheel manufacturer in accordance with the safety regulations.
Types of ISO „A“ $d=6^+ \text{ mm}$, $l=40 \text{ mm}$.
Types of ISO „B“ $d=3^+ \text{ mm}$, $l=30 \text{ mm}$.

Grinding discs

Grinding disc

- 5997708100017 Ø 105 Grinding disc for drilling machine
- 5997708100086 Ø 115 Flexible grinding disc for anglegrinder
- 5997708100277 Ø 125 Grinding disc for drilling machine
- 5997708100314 Ø 125 Grinding disc with flexible surface and velcro for anglegrinder
- 5997708107573 Grinding disc for drilling machine

Flap disc

- 5997708103148 Ø 115 Flap disc P100 / Metal disc
- 5997708103155 Ø 115 Flap disc P80 / Metal disc
- 5997708103162 Ø 115 Flap disc P60 / Metal disc
- 5997708101717 Ø 115 Flap disc P40 / Metal disc
- 5997708100468 Ø 115 Flap disc P100 / Plastic disc
- 5997708100475 Ø 115 Flap disc P80 / Plastic disc
- 5997708100482 Ø 115 Flap disc P60 / Plastic disc
- 5997708103179 Ø 115 Flap disc P40 / Plastic disc
- 5997708100499 Ø 180 Flap disc P80 / Metal disc
- 5997708100505 Ø 180 Flap disc P60 / Metal disc
- 5997708100512 Ø 180 Flap disc P40 / Metal disc

We can produce this product for special works
(for only metal or wood).

Fibre disc

5997708102219 Ø 115 Rubberplate
5997708102226 Ø 180 Rubberplate

5997708102585 Ø 115 Fibre disc for metal P40 / DIY
